

OMS Newsletter – February 2018

Happy Chinese New Year

Our monthly newsletter keeps you up-to-date on all the new, existing, add-on functions which you can use to get the most out of your OMS software. This is the Power of OMS!

This month we would like to share:

Customer Sales Inquiry

The Customer Sales Inquiry provides a list of selected items purchased from a customer, as well as a list of selected customers who purchased an item. This can be filtered to a selected period of time. You can print and export this report to a CSV file. To promote repeat purchases for your business with existing customers, this report can greatly assist you in finding out what items your customers purchase. Contact us for more details.

Purchase Order Price

OMS automatically fills in your last purchased price when you add a new purchase order. You can also use the Historical Purchase Price window to compare the purchase price from this vendor and other vendors in the past. If your vendor provides a discount for the entire purchase order, you can easily apply the discount rate to recalculate every item's purchase price on the purchase order.

Please NEVER hesitate to give us a call if you have any questions. Thank you for using OMS!
