

OMS Newsletter – January 2018

Happy New Year

Our monthly newsletter keeps you up-to-date on all the new, existing, add-on functions which you can use to get the most out of your OMS software. This is the Power of OMS!

This month we would like to share:

 **OMS and Mobile OMS: S/O to display item's last selling price to the customer**

When you are making a sales order with a customer, you may want to know an item's last selling price for this particular customer. OMS and Mobile OMS applications can show you this price easily.

 **Company Sales Inquiry**

In the Accounts Receivable module, the Company Sales Inquiry screen provides you information such as invoice amount, sales amount, sales return, customer return, net sales, sales tax rate, sales tax, shipping and handling fees that you customer paid for each invoice for a selected period of time. You may easily group sales by customer, specific tax rates, states or zip codes sales have shipped to, and much more. All this information can be exported to Excel for further analysis. In addition, you can also get a list of void invoices from this screen.

Please NEVER hesitate to give us a call if you have any questions. Thank you for using OMS!
